EXPERIENCE

ezTravel - IT & UED Department - Frontend Developer 2014/12 - Now (Full time job)

main responsibilities:

- Architects and develops websites and applications using web technologies (i.e. HTML, CSS, and JavaScript) which run natively in a web browser.
- Communicate between no matter designer, backend developer even product manager.

achievements / awards:

- Homepage project frontend leader.
- Launch the sharing party.
- Used to be the ued team member.
- Support other projects and helping others.

project:

- Homepage
- Coupon
- Ucar

Reason for leaving:

- Friction between departments and senior managers stop the company and my passion too. I don't want to play the game with them. I just want to do the right thing.

AITE NETWORK - RD Department - Frontend Developer 2013/8 - 2014/11 (Full time job)

main responsibilities:

- Architects and develops websites and applications using web technologies (i.e. HTML, CSS, and JavaScript) which run natively in a web browser.
